Academic Program and Course Description Guide

2024

Introduction:

The educational program is a well-planned set of courses that include procedures and experiences arranged in the form of an academic syllabus. Its main goal is to improve and build graduates' skills so they are ready for the job market. The program is reviewed and evaluated every year through internal or external audit procedures and programs like the External Examiner Program.

The academic program description is a short summary of the main features of the program and its courses. It shows what skills students are working to develop based on the program's goals. This description is very important because it is the main part of getting the program accredited, and it is written by the teaching staff together under the supervision of scientific committees in the scientific departments.

This guide, in its second version, includes a description of the academic program after updating the subjects and paragraphs of the previous guide in light of the updates and developments of the educational system in Iraq, which included the description of the academic program in its traditional form (annual, quarterly), as well as the adoption of the academic program description circulated according to the letter of the Department of Studies T 3/2906 on 3/5/2023 regarding the programs that adopt the Bologna Process as the basis for their work.

In this regard, we can only emphasize the importance of writing an academic programs and course description to ensure the proper functioning of the educational process.

Concepts and terminology:

Academic Program Description: The academic program description provides a brief summary of its vision, mission and objectives, including an accurate description of the targeted learning outcomes according to specific learning strategies.

Course Description: Provides a brief summary of the most important characteristics of the course and the learning outcomes expected of the students to achieve, proving whether they have made the most of the available learning opportunities. It is derived from the program description.

Program Vision: An ambitious picture for the future of the academic program to be sophisticated, inspiring, stimulating, realistic and applicable.

Program Mission: Briefly outlines the objectives and activities necessary to achieve them and defines the program's development paths and directions.

Program Objectives: They are statements that describe what the academic program intends to achieve within a specific period of time and are measurable and observable.

Curriculum Structure: All courses / subjects included in the academic program according to the approved learning system (quarterly, annual, Bologna Process) whether it is a requirement (ministry, university, college and scientific department) with the number of credit hours.

Learning Outcomes: A compatible set of knowledge, skills and values acquired by students after the successful completion of the academic program and must determine the learning outcomes of each course in a way that achieves the objectives of the program.

Teaching and learning strategies: They are the strategies used by the faculty members to develop students' teaching and learning, and they are plans that are followed to reach the learning goals. They describe all classroom and extra-curricular activities to achieve the learning outcomes of the program.

Concepts and terminology

Description of the academic program: The description of the academic program provides a brief summary of its vision, mission, and goals, including an accurate description of the targeted learning outcomes according to specific learning strategies

Course Description: Provides a necessary summary of the most important characteristics of the course and the learning outcomes expected of the student to achieve, demonstrating whether he or she has made the most of the available learning opportunities. It is derived from the program description

Program Vision: An ambitious picture for the future of the academic program to be an advanced, inspiring, motivating, realistic and applicable programme

The program's mission: It briefly explains the goals and activities necessary to achieve them and also defines the program's development paths and directions

Program objectives: These are statements that describe what the academic program intends to achieve within a specific period of time and are measurable and observable

Curriculum structure: All courses/study subjects included in the academic program according to the approved learning system (semester, annual, Bologna track), whether it is a requirement (ministry, university, college, or scientific department), along with the number of study units

Learning outcomes: A consistent set of knowledge, skills, and values that the student has acquired after the successful completion of the academic program. The learning outcomes for each course must be determined in a way that achieves the program objectives

Teaching and learning strategies : They are the strategies used by the faculty member to develop the student's teaching and learning, and they are plans that are followed to reach the learning goals. That is, it describes all curricular and extracurricular activities to achieve the learning outcomes of the programme

١.	المؤسسة التعليمية	جامعة واسط / كلية علوم الحاسوب وتكنولوجيا المعلومات
٢.	القسم الجامعي / المركز	قسم علوم الحاسوب
٣.	اسم المقرر	إنكليزي ٢
٤.	أشكال الحضور المتاحة	دوام حضوري (نظري)
٥.	الفصل / السنة	الفصل الدراسي الثاني / المرحلة الثانية
٦.	عدد الساعات الدراسية (الكلية)	٣٠ ساعة
٧.	تاريخ إعداد هذا الوصف	٢٠٢٤/٣/١٠
٨.	اهداف المقرر	
	<ul style="list-style-type: none"> • تعلم المهارات الأساسية للغة الإنكليزية • تعلم أساسيات مهارة القراءة • تعلم أساسيات مهارة الكتابة • القدرة على الأصغاء • فهم المعاني وإضافة مفردات جديدة • تعلم التكلم والمناقشة باستخدام مفردات اللغة 	
٩.	مخرجات المقرر وطرائق التعليم والتعلم والتقييم:	
	أ-	الأهداف المعرفية:
	١.	القدرة على قراءة نصوص اللغة بشكل صحيح
	٢.	القدرة على كتابة فقرات بشكل مترابط
	٣.	القدرة على وصف مكونات أي موضوع
	٤.	القدرة على وصف مخططات بشكل فقرات مترابطة
	ب-	الأهداف المهاراتية الخاصة بالمقرر:
	١.	اكتساب المهارة على المناقشة باستخدام مفردات اللغة
	٢.	تنمية مهارات الطالب للعمل ضمن فريق وفهم الواجبات الخاصة وإنجازها ضمن مدة
	طرائق التعليم والتعلم	
	١.	إدارة المحاضرة على نحو يشعر بأهمية الوقت.
	٢.	تكليف الطالب ببعض الأنشطة والواجبات الجماعية.
	٣.	تخصيص نسبة من الدرجة للأنشطة الجماعية.
	طرائق التقييم	
	١.	المشاركة الفاعلة في قاعة الدرس دليل التزام الطالب وتحمله المسؤولية.
	٢.	الالتزام بالموعد المحدد في تقديم الواجبات والبحوث.
	٣.	تعبير الاختبارات الفصلية والنهائية عن الالتزام والتحصيل المعرفي والمهاري.
	ج-	الأهداف الوجدانية والقيمية.
	١.	تطوير قدرة الطالب للعمل على أداء الواجبات وتسليمها في الموعد المقرر.

Description The decision : Translations (1)Compilers) (

يوفر وصف المقرر هذا إيجازاً مقتضياً لأهم خصائص المقرر ومخرجات التعلم المتوقعة من الطالب تحقيقها مبرهنناً عما إذا كان قد حقق الاستفادة القصوى من فرص التعلم المتاحة. ولابد من الربط بينها وبين وصف البرنامج.

١.	المؤسسة التعليمية	جامعة واسط / كلية علوم الحاسوب وتكنولوجيا المعلومات
٢.	القسم الجامعي / المركز	قسم علوم الحاسوب
٣.	اسم المقرر	مترجمات
٤.	أشكال الحضور المتاحة	دوام حضوري (نظري وعملي)
٥.	الفصل / السنة	الفصل الدراسي الأول / المرحلة الثالثة
٦.	عدد الساعات الدراسية (الكلية)	٦٠ ساعة
٧.	تاريخ إعداد هذا الوصف	٢٠٢٤/٣/١٠
٨.	اهداف المقرر	
		<ul style="list-style-type: none"> يهدف المقرر الى تعريف الطالب على المستويات الخاصة بلغات البرمجة. يهدف هذا المقرر الى تمكين الطالب من استيعاب المراحل التي يمر بها كل برنامج مكتوب باي لغة برمجية من لحظة ضغط زر التنفيذ وصولاً الى ظهور النتائج على شاشة التنفيذ. التعرف على المراحل الستة لهذا المقرر والخوارزميات المستخدمة في كل مرحلة. التعرف على الاخطاء التي من الممكن ان يرتكبها المبرمج.
٩.	مخرجات المقرر وطرائق التعليم والتعلم والتقييم:	
	أ- الأهداف المعرفية:	
	١. التعرف على الفرق بين المفسرات والمترجمات.	
	٢. التعرف على مراحل المترجمات لكل لغة برمجية.	
	٣. معرفة وفهم اساس عمل سياقات كل مرحلة بصورة مستقلة.	
	٤. معرفة وفهم تنوع البيانات المدخلة والذي عليه يحدث تنوع في طرق تمثيلها.	
	٥. معرفة وفهم كيفية التعامل مع اي قيمه مدخله والتحقق من صحتها.	
	٦. فهم انواع الهياكل البيانية المستخدمة وتسخيرها للتأكد من مدى صحة اي تمثيل لغوي.	
	ب- الأهداف المهاراتية الخاصة بالمقرر:	
	١. اكساب الطالب القدرة على كيفية بناء المترجم الخاص بلغة معينة او تطويره او التعديل عليه.	
	٢. اكساب الطالب الخبرة في اكتشاف الخطأ وعدم الوقوع فيه.	
	طرائق التعليم والتعلم	
	١.لقاء المحاضرات العلمية في القاعات الدراسية.	
	٢.ارشاد الطلاب الى بعض المواقع الالكترونية للإفادة منها.	
	٣.تكليف الطالب بإعداد تقارير مختصرة لبعض المواضيع وتنفيذ الواجبات المنزلية.	
	٤.حلقات نقاشية لمعالجة المشاكل التي يواجهها الطالب بالمقرر.	
	طرائق التقييم	
	١.تنفيذ الواجبات اليومية.	
	٢.الاختبارات اليومية والشهرية والنهائية.	
	ج- الأهداف الوجدانية والقيمية.	
	١.تشجيع الطلاب على الاستفادة من المقرر من خلال الايمان بأهمية المقرر في العملية التعليمية وفي

Goals The decision		. 8
Aims This The decision To Definition Students Really Intelligence Artificial And his relationship Knowingly Accounts And in a way Regional And Process		•
Definition The student With algorithms Intelligence Artificial.		•
Explanation And clarification Challenges Which Confront us When building Systems Smart.		•
It gives Models And an example About The organization Memory And What is it? Technologies Basic used In This The organization.		•
Outputs The decision And ways Education And learning And evaluation:		. 9
Objectives Knowledge:	- a	
. Recognition On Understood intelligence, How? We distinguish 1 Behavior Smart And its value, And what is it? Intelligence Artificial.		
. ?Recognition On date Intelligence Artificial And what is it 2 Rights Knowledge The other associated With it.		
. Recognition On Understood A rule knowledge, Its 3 importance, Its types, Knows Build it And represent it.		

. Recognition On Field Solution The 4 problemspace. space .state	
. Recognition On the road Search 5strategies search And especially All Knock And when? It is done Use it.	
Objectives Marathi Private By decision:	- B
. Ikksaab The student Skill Choose The way appropriate To represent 1 Knowledge Private By applying Certain And According to Size This Knowledge(Information) And Its nature And its components And a way The connection Between her.	
. Development Skills The student In Choose The way Example To represent 2graph. graph space. space stateAccording to Standards Certain Related Naturally The issue Or the problem What is meant? Solve it.	
. Ikksaab The student Skill Choose The way Example To search 3search And According to Standards Certain.	
Ways Education And learning	
. Meeting Lectures Scientific In Halls Academic And use the 1show) (Data For the purpose of a statement Ideas Main for the topic.	
. Guidance Students To Some Locations Electronic For 2 benefit From her.	
. Cost The student By implementing A group From Programs In 3 Laboratories The process.	
. Cost The student Prepared Reports Brief For some Topics And Implementation Duties 4 Household.	
Ways Evaluation	
. Implementation Duties Daily 1.	
. Tests Daily And monthly And the final 2.	

Objectives Existentialism And value.	-C
Enhancement Learning About The student is from During Subtract a group Solutions For the same The problem And Discuss it Nope On Only one And Select Method The appropriate solution for the problem proposed With Stop On Disadvantages Really Roads.	. 1
Encouragement The request On Choose Correct from During Subtract Solutions It contains Errors And Select This Errors After Discussion And Treating it.	. 2
Enhancement Possibilities The request From During Subtract Questions Oral Exceptional You need To Answers Exceptional Where you are Self Heavy Specific On the one hand Evaluation And Grades What? Be Hoof Strong To participate The request And Competition And Competition On Solve it.	. 3
Ways Education And learning	
Giving activities group Importance From During Customize Degrees On Activities The group.	. 1
administration The lecture On Shape It works The student He feels Importantly Time.	. 2
Encouraging the student On Submission Work Creativity In Specialization Keep up Standards Quality In Service The community.	. 3
Ways Evaluation	
Commitment In attendance For a hall The lesson And finish Business The taxpayer With itDuties and reports (Within Timings Specific.	. 1
Discussion And participation Effective In Hall The lesson.	. 2

Goals The decision		8
Aims The decision To Definition The student On Levels Private Languages Programming.		•
Aims This The decision To Enable The student From Accommodation The stages Which It passes With it Every programme Written Bye Language Software From Just a moment Press button Implementation Arriving To Appearance Results On Execution screen.		•
Recognition On The stages The six That's why The decision And algorithms used In All Stage.		•
Recognition On Errors Which From The possible that He commits it The program.		•
Outputs The decision And ways Education And learning And evaluation:		9
Objectives Knowledge:	- a	
. Recognition On The difference 7 Between Interpretations And translators.		
. Recognition On Stages 8 Translations for each Language Software.		
. Knowledge And they understood He 9 founded Work The contexts of each stage In a way Independent.		
. Knowledge And they understood Diversity Data Entry 10		
which On mm it happens Diversity In knock Represent n.		

. Knowledge And they understood How Dealing 11 With any Value it His entrance And verification From Her health.	
. They understand Types Structures The statement The user And 12 use it To be sure From Extent Health any Acting Linguistic.	
Objectives Marathi Private By decision:	- B
. Ikshaab The student Capacity On How Building The translator Private In language 3 Certain or Develop it or Amendment Aliyah.	
. Ikshaab The student Experience In Discovery The error 4 And not Occurrence In it.	
Ways Education And learning	
. Meeting Lectures Scientific In Halls Academic 5.	
. Guidance Students To Some Locations Electronic For 6 benefit From her.	
. Cost The student Prepared Reports Brief For some Topics And Implementation Duties 7 Household.	
. Episodes Discussion To be treated The problems that He 8 faces it The student By decision.	
Ways Evaluation	
. Implementation Duties Daily 3.	
. Tests Daily And monthly And the final 4.	

Objectives Existentialism And value.		-C
. Encouragement Students On Benefit From decided by During Faith Importantly The 5 Field Specialization In a way General. decision In The process Educational And in

Goals The decision		. 8
Aims This The decision To Supply The student With a look General About Programming Locations Electronic.		•
It is possible The student From Design Pages Web Developed From During A group Complete From Languages Programming.		•
It is possible The student From Program it Pages The web From During A group From Languages Programming.		•
It is possible The student From Design Pages Web You work With Rules Data relational stored On The Internet.		•
It is possible The student From Knock Building Rules Data Effective For applications The web And update it Through The Internet.		•
It is possible The student From Dealing With EnvironmentClient-Server		•
Outputs The decision And ways Education And learning And evaluation:		. 9
Objectives Knowledge:		- a
. Enable The student From Knowledge Types And Basics Design And Programming Locations Through Internet And the web.		1
. Enable The student From Knowledge Languages necessary To design And programming Different Types Locations Through The Internet.		2
. Enable The student From Knowledge Jobs Basic Which Availability Different On the web.		3

. Enable The student From Building Locations It works 4 Effectively Through The Internet.	
Objectives Marathi Private By decision:	- B
. Iksaab The student Skills Software Especially Programming 1 Locations On The Internet.	
. Iksaab The student Skills In Update Programs And discovery And specify Errors 2 Software And how Treating it.	
. Iksaab The student Skill Analysis The logical one To structure it Rules 3 Connected data On sites Electronic	
Ways Education And learning	
. Meeting Lectures Scientific In Halls Academic And use the 1show) (Data For a purpose Statement Ideas Main for the topic.	
. Guidance The request To Some Locations Electronic 2 For benefit From her.	
. Cost The student Prepared Reports Brief For some Topics And Implementation Duties 3 Household.	
. A contract Research sessions It is done From During it Explanation And analysis 4 Some Problems A state Ijad Solutions For him.	
Ways Evaluation	
. Action Tests Theory In The hall Academic 1) daily, monthly, (final)	
. Subtract Questions And inquiries Oral On The request For a 2 statement Extent Their response.	

Organize The request In a way Totals And their cost Completely Requirements Building System Certain And evaluation Percentage Their achievement For that Work. 3	
Objectives Existentialism And value.	-C
. Encouragement Students On Benefit From The decision From During Faith 1 Importantly The decision In The process Educational And in Field Specialization In a way General.	
. Ability The student To work On performance Duties And deliver 2 it In The appointment The decision.	
. Development Energies The idea And creativity I have The request From During 3 Implement them To different Duties.	
. Encouragement The request And raise spirit 4 Competition Among them.	
. Thinking The logical one In Study Sides The problem And find Solutions 5 appropriate For her.	
. Development Ability The student On Dialogue 6 and discussion.	
Ways Education And learning	
. Giving Activities group Importance From During Customize Degrees On Activities 1 group	
. administration Lecture on A form that works The student 2 He feels Importantly Time.	
. Encouragement The student On Submission Work Creativity In Specialization Keep 3 up Standards Quality In Service The community.	
Ways Evaluation	
. Commitment In attendance For a hall The lesson And finish Business The taxpayer 4 Specific. With it Duties and reports (Within Timings)	
. Discussion And participation Effective In Hall 5 The lesson.	
. It is considered Tests Now , The quarterly And the final About Commitment 6 And collection Cognitive And the skills.
